Rowley Spray Booths

Rowley Spray Booths has always been family owned and operated for over four decades. Supplying the automotive industry with, Spray booths, External PODS, Equipment and more.

Bespoke & custom built for your needs.

Experience matters. Over four decades experience in the automotive industry.

We are proud of our heritage. All of our products are made right here in Britain.

With a distinguished 40-year legacy as a family-run business, Rowley Spray Booths combines tradition and innovation. Our tailored spray booth creations cater to a diverse range of industries, from automotive refinement to industrial production.

Aero Eco

The AERO-ECO spray booth exemplifies precision and performance in automotive finishing. With a focus on innovation, cost-effectiveness, and advanced engineering, it is a premier solution in the industry.

Dimensions

- Length: 7.0 Metres
- Width: 4.0 Metres
- Height: 2.5 Metres

Extended Height and Extended Length options are available. *

Specs

- Energy efficient control system.
- Powerful duplex centrifugal fan.
- 1200 LUX LED Lighting system.
- Advanced Airflow (11,000 m3/H)
- Single Motor Eco Operation.
- Direct gas/LPG-fired heating.
- 3115mm Wide component doors.
- Additional self-closing personnel door.
- Rear-mounted plant.
- Low noise output.
- Laminated safety glass fitted as standard.
- Corner opening component door.*
- External installation option.*
- Extended height and length option.*
- Roof-mounted plant option available.*

Features

Energy efficient control system.

Powerful duplex centrifugal fan.

1200 LUX LED Lighting system.

Advanced Airflow (11,000 m3/H)

Aero Midi

The AERO-MIDI Car Spray Booth exemplifies automotive excellence with its meticulous attention to detail. This advanced solution sets a new industry standard for precision and innovation, ensuring superior performance and quality in automotive finishing.

Dimensions

- Length: 7.0 Metres
- Width: 4.0 Metres
- Height: 2.5 Metres

Extended Height and Extended Length options are available. *

Specs

- Energy efficient control system.
- Powerful duplex centrifugal fan.
- Single motor operation.
- 1200 LUX LED Lighting system.
- Advanced Airflow (16,000 m³/H)
- Rigid double 'skin' insulated galvanised steel panel.
- Direct gas/LPG-fired heating.
- 3115mm Wide component doors.
- Additional self-closing personnel door.
- Rear-mounted plant.
- Low noise output.
- Laminated safety glass fitted as standard.
- Corner opening component door*
- External installation option*
- Colour-coated white internal & external finish.*
- Raised floor extraction available.*
- Roof-mounted plant option available.*
- Extended height and length option.*

Features

Energy efficient control system.

Powerful duplex centrifugal fan.

1200 LUX LED Lighting system.

Advanced Airflow (16,000 m³/H)

Aero Maxi

The AERO-MAXI Spray Booth Oven is engineered for exceptional paint application and low-bake curing operations. This high-specification solution redefines industry standards, providing an optimal environment for diverse paint applications and ensuring superior performance and reliability.

Dimensions

- Length: 7.0 Metres
- Width: 4.0 Metres
- Height: 2.5 Metres

Extended Height and Extended Length options are available. *

Specs

- Energy efficient control system.
- Powerful duplex centrifugal fan.
- Flash off mode.
- Rigid double 'skin' insulated white polyester steel panel construction internally & externally.
- Direct gas/LPG-fired heating.
- 3115mm Wide component doors.
- Additional self-closing personnel door.
- Chest-mounted plant to maximise workshop space.
- Low noise output.
- Laminated safety glass fitted as standard.
- Corner opening component door*
- External installation option*
- Extended height and length option.*
- Raised floor extraction available.*
- Roof-mounted plant option available.*

Features

Energy efficient control system.

Powerful duplex centrifugal fan.

1200 LUX LED Lighting system.

Advanced Airflow (20,000 m³/H)

Flash off mode.

Aero Smart

Enhance your SMART repairs with the AERO-SMART Smart Spray Booth, a pinnacle of innovation in automotive refinishing. Designed to elevate efficiency and flexibility, this advanced booth adapts to your needs, transforming your workspace with superior solutions.

Dimensions

- Length: 7.0 Metres
- Width: 4.0 Metres
- Height: 2.5 Metres

Extended Height and Extended Length options are available. *

Specs

- Input filter clean air replacement.
- Powerful duplex centrifugal fan.
- 1200 LUX LED Lighting system.
- Flame retardant flexi-curtain.
- Rigid single 'skin' galvanised steel panel construction.
- Chest mounted plant to maximise workshop space.
- Low noise output.
- Laminated safety glass fitted as standard.
- Easy operated control panel.

Features

Input filter clean air replacement.

Powerful duplex centrifugal fan.

1200 LUX LED Lighting system.

Flame retardant flexi-curtain.

Aero Commerical

At Rowley Spray Booths, we pride ourselves on offering versatile and tailored solutions with our Industrial and Commercial Spray Booth Oven range. Our customer-centric approach ensures that our spray booth ovens align seamlessly with your unique requirements, delivering optimal functionality and performance.

Dimensions

Designed to customer specification.

Specs

- Double 'skin' insulated galvanised, or white polyester coated steel panel construction.
- Direct gas/LPG-fired heating.
- Floor or roof-mounted input plant options.
- Pit extraction, side 'skirt' chest extraction or rear chest extraction.
- Additional self-closing personnel door.
- Chest-mounted plant to maximise workshop space.
- Low noise output.
- Electrically operated roller shutter component doors.*
- Split operation option.*
- External installation option*

Features

Energy efficient control system.

Powerful duplex centrifugal fan.

1200 LUX LED Lighting system.

High & Low level lighting.

Customised to customer design specification.

Paint Rooms

Rowley Spray Booths offers premium paint mixing and storage rooms, meticulously designed to meet your exact specifications. Available in various sizes and configurations, our paint rooms ensure a seamless fit for your operational needs, providing the pinnacle of paint room solutions.

Dimensions

- Length: 3.0 Metres
- Width: 2.0 Metres
- Height: 2.5 Metres

Extended Height and Extended Length options are available. *

Specs

- Spray gun cleaner extraction.
- Clean air input filter.
- Extraction system.
- Designed to customer specifications.
- Rigid double 'skin' insulated panels, in pre-coated polyester or bright galvanised steel.
- Input filtration to ensure clean air enters the paint mixing room.
- Self-closing personnel door.
- LED LUX lighting system.
- Laminated safety glass fitted as standard indoors and lighting units.
- Spray gun cleaner extraction.*
- Vented mixing room table.*
- Paint room heaters.*

Features

Spray gun cleaner extraction.

Clean air input filter.

Extraction system.

Customised to customer design specification.

External PODS

Our External PODS are insulated weatherproof spray booths for space-constrained body shops and industrial facilities. They offer customisable designs, energy efficiency, turnkey solutions, and enhanced operational efficiency without needing additional indoor space.

Dimensions

Designed to customer specification.

Specs

- Energy efficient control system.
- Powerful duplex centrifugal fan.
- 1200 LUX Wrap around LED Lighting system.
- Advanced Airflow (16,000 m3/H)
- Double 'skin' insulated galvanised, or white polyester coated steel panel construction.
- Direct gas/LPG fired heating.
- Additional self-closing personnel door.
- Chest mounted plant to maximise workshop space.
- Low noise output.
- Laminated safety glass fitted as standard.
- Eco save mode.
- Prep Bay available.*
- Mixing Room available.*
- Multiple Booth options available.*
- Track & Skate system available.*

Features

Energy efficient control system.

Powerful duplex centrifugal fan.

1200 LUX Wrap Around LED Lighting system.

Advanced Airflow (16,000 m3/H)

Equipment

Rowley Spray Booths provides essential equipment to enhance spray booth performance, including extraction mixing benches, compressed air regulators, high-quality compressors, spray gun cleaners, and paint mixing room heaters, ensuring optimal functionality and efficiency.

Servicing

Rowley Spray Booths offers comprehensive maintenance and repair services, including preventative and corrective maintenance, breakdown assistance, safety testing, and replacement parts. Our Gas Safe registered engineers ensure optimal performance and swift nationwide support.
